

March 20, 2017

The Honorable Paul Ryan
Speaker of the House

The Honorable Kevin McCarthy
Majority Leader

The Honorable Steve Scalise
Majority Whip

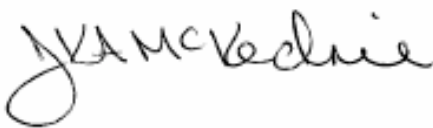

Dear Mr. Speaker, Mr. Majority Leader and Mr. Majority Whip:

The Health Savings Accounts (HSA) Council has as members' banks, insurers, non-bank custodians and technology companies that service more than ninety percent of the Health Savings Accounts in the world.

We are particularly pleased about the Health Savings Account expansion provisions that are included in the House Health Care Reconciliation bill, the American Health Care Act. This provision taken from Representative Paulsen's and Chairman Hatch's "Health Savings Account Act of 2017" is widely supported. It is essential that the bill passes the House to set up an alternative to the troubled exchanges so that Americans are not left without coverage.

The members of the HSA Council eagerly support this provision and urge your support for the American Health Care Act.

Sincerely,

J. Kevin A. McKechnie
Executive Director
HSA Council
